CODEN: YJBMAU

ISSN 0044-0086

The Yale Journal of Biology and Medicine is distributed bi-monthly.

Reprint requests should be addressed to the authors. Manuscripts and requests for information by prospective authors should be submitted to: The Managing Editor, *The Yale Journal of Biology and Medicine*, 333 Cedar Street, New Haven, CT 06510.

All subscription inquiries should be addressed to:

The Yale Journal of Biology and Medicine, 333 Cedar Street, New Haven, CT 06510.

The 1988 subscription rate to libraries and multi-reader institutions is \$75.00

annually (USA) and \$81.50 elsewhere. Individuals may subscribe for their own

use for \$50.00 (USA) and \$56.50 elsewhere. The single copy price (*except special issues, as indicated*) is as follows: From Volume 1 to Volume 49, the price is \$7.50. From

Volume 50 to Volume 55, the price is \$8.50. From Volume 56 to Volume 59, the price is

\$10.50. From Volume 60 onward, the price is \$15.00. Postage and handling are additional

in all cases. All claims for issues lost in the mail must be received at the *Journal* office,

333 Cedar Street, New Haven, CT 06510, within 90 days of the issue's mailing date

(for domestic subscriptions) and within 180 days of the issue's mailing date (for

subscriptions outside the United States).

Second class postage paid at New Haven, CT, and at additional mailing offices.

Designed and manufactured in the U.S.A.

INFORMATION FOR AUTHORS

The Yale Journal of Biology and Medicine is an international journal which publishes original contributions, reviews, historical articles, case reports, and symposia related to biomedical matters. It welcomes contributions from all qualified sources. Manuscripts are accepted on the understanding that they have not been, nor will be, submitted for publication elsewhere.

Submission of Manuscripts: Manuscripts should be submitted to:

The Managing Editor, The Yale Journal of Biology and Medicine,
333 Cedar Street, New Haven, Connecticut 06510

Form of Manuscript: Three copies including figures and title pages are required. Manuscripts must be typewritten and double-spaced throughout, in black ink on one side of 8½ by 11 in. white paper, with minimum margins of 1 inch on all sides. All pages should be numbered consecutively. The title page should contain the article title, author(s)' name(s) and academic degree(s), affiliation(s), a short abbreviated running title of 40 to 50 characters including letters and spaces, and the name and complete mailing address of the person to whom correspondence and reprint requests should be sent. An abstract of less than 200 words must accompany each manuscript. Text should begin on page 1. Manuscripts prepared on word processors should not be justified.

Editorial style should conform to *The ACS Style Guide* or the *CBE Style Manual*.

Abbreviations used in the manuscript should be listed double-spaced, in alphabetical order, with their definitions, on a separate sheet of paper headed "Abbreviations."

Footnotes should be identified by superior Arabic numerals in the text and should be typed double-spaced on a separate sheet headed "Footnotes" at the end of the article. Footnotes to tables should be identified by superior lower case italic letters (^{a,b} etc.) and typed, double-spaced, at the bottom of the table.

Tables should be consecutively numbered with Arabic numerals and so cited in the text. Each table, with its number and title, should be typed double-spaced on a separate sheet. Units of measurements should be clearly indicated for each entry of the table, in the column head if possible or else as a part of the entry.

Figures should be cited consecutively in the text by Arabic numerals. Figure captions should be typed double-spaced on a separate sheet. All figures must be submitted as high-quality glossy prints which will permit photographic reproduction without retouching or redrawing. The lettering should be large enough to be legible after a reduction of 50%. Figures must *not* be mounted on cardboard or other backing. Each figure must be identified by its figure number and the top indicated on the back of the art.

References should be cited *numerically*, in order in the text, using an Arabic numeral in brackets. They must be typed *double-spaced*, in numerical order, on a separate sheet headed "References" at the end of the paper. References appearing for the first time in tables and figures must be numbered in sequence with those cited in the text where the table or figure is mentioned. The style of references is that of the *Index Medicus*. When authorship of a reference is multiple, all names will be cited.

Sample references:

1. Pawelek J, Wong G, Sansone M, Morowitz J: Molecular controls in mammalian pigmentation. *Yale J Biol Med* 46:430-443, 1973
2. Summers WC: Molecular epidemiology of DNA viruses: Applications of restriction endonuclease cleavage site analysis. In *Symposium on Recent Advances in Clinical Virology*. Edited by GD Hsiung. New York, Praeger Publishers, 1981, pp 55-60
3. Squire J: *The Structural Basis of Muscular Contraction*. New York, Plenum Press, 1981, 698 pp

Special symbols which cannot be typed should be carefully drawn in in black ink and identified, in words, on the margin of the manuscript page. Such symbols might include special characters, accents, or mathematical notation.

Proofs: Galley proofs will be sent to the author, with a reprint order form, a note on the preferred marking of proofs, and a request for the key words under which the article should be indexed for the *Journal*.

Copyright: All material accepted for publication by *The Yale Journal of Biology and Medicine* becomes the property of the *Journal* which owns its copyright. It is understood that submission includes the right of further reproduction at the *Journal's* discretion.
